„Art should delight and inspire the people“

The internationally reknown artist and architect Efthymios Warlamis founded a congenial and exciting museum dedicated to the experience of art. The museum is surrounded by an outstanding and spacious sculpturepark. The unique exhibition concept of the Art Museum Waldviertel wants to bring vitality into the world of art. The exhibition managers are working with materials and impressions, that are familiar for the people and touch their wishes and desires.

He presents an artistic-poetic view of the secrets of nature with numerous works of national and international artists.
